Award winning Supernova® Digital Vacuum Gauge allows service technicians to determine when a system is properly evacuated of air and moisture. The SUPERNOVA is accurate from 12,000 microns down to 10 microns. The unit features many user-defined programmable options such as duration of the backlight, programmed shut-off and the ability to set alarms when system reaches a defined mark.

DV-41 - \$185.99

The TANK extends the life of your vacuum pump! All vacuum pumps require changing oil after every use oil. Maintaining clean oil in the pump ensures that your pump will operate at peak efficiency. It's a clean and easy way to change oil in the field and keep contaminated oil contained. A must for any field technician.

DV-T1 - \$24.99 – Change Oil or Dispose of Vacuum Pump Oil at Any Dennis Location.

JB Industries is proud to introduce the Patriot 2-valve brass manifold. Its sleek new bar design paired with easy to grip metal handles and 3-1/8" metal class 1 illuminating gauges will make it the go-to manifold for HVAC techs. In addition to these new features, we have incorporated some of our best manifold features such as the free floating o-ring system and swiveling hose holder fittings that are replaceable. Our proudest feature of the Patriot stems from JB's partnership with Operation Homefront. This nonprofit organization targets American military personnel and/or families who have unmet needs due to financial hardship, death, injury, or physical or mental detriment as a result of service since September 11, 2001.
